

BBS Slot Block Barrier

The only water filled barrier made to fit an industry standard 3.5m x 2m mesh panel

The BBS Slot Block Barrier is lightweight and easily assembled, it is highly visible and gives added stability to fence panels.

By eliminating the need for back stays and feet the BBS Slot Block Barrier dramatically reduces the working footprint.

Features:

- Rotates 90 degrees
- 75mm water filling point
- 50mm drainage point for easy emptying
- Stock product galvanised, can be manufactured in corporate colours
- Branding and 'mould-in' graphics available
- Lights and reflective strips can be added for increased visibility corporate colours

Benefits:

- MIRA Wind tested to 57mph
- 18 units per double pallet (9 x 3.5m complete sets)
- Small footprint for inner city projects
- 100% recyclable
